Cabs

Always use a licenced cab or black cab

A licenced black cab should always have a registered ID licence on the back of the vehicle.

A mini cab must have licence disc on front and rear windscreen

Try to keep a local taxi/cab firm number in case you need to call them or download a well- known cab service such as Uber.

Before you get in the vehicle ask who they have turned up for.

Never get in a vehicle with someone you don't know who offers you a lift.
