Dear Parents and Carers,

Re: Year 2 Science Dome Space Exploration Workshop – Thursday 12th October 2023

We have an exciting opportunity planned for the children in Year Two to attend a Science Dome Space Exploration Workshop. This will be part of our astronaut inspiration day, where the children will be immersed in space themed activities.

The space exploration workshop involves children entering a science dome and watching a show with a real-life presenter as their guide. The show explores human kind's obsession with the stars. It teaches the children about the history of space exploration from the early astronomers such as Galileo to the later moon landings of the 1960s. The dome is turned into the inside of a space ship to take the children on a journey to the moon. The presenter will then use the dome to explore space with the class; taking a look at the solar system and its components. This unique experience is being brought to Hazelbury Primary School on **Thursday 12th October**.

The cost of the workshop will be **£4.00** per child. Please pay your contribution using the **Arbor** app by **Wednesday 4th October**.

In accordance with the 1996 Education Act, we have to ask for 'voluntary contribution' towards the cost of the workshop. In the unlikely event that costs cannot be covered by contributions, the workshop will be cancelled.

Yours sincerely,

Danielle Smith
Year 2 Assistant Headteacher
